We Need Your Help!

NEW HOPE CLINIC

New Hope Clinic, Inc.
Providing Free Healthcare for
Uninsured, Low Income
Residents of Brunswick County
since 1998

HISTORY

New Hope Clinic is a volunteer driven 501(c)3 non-profit organization that has been working since 1998 to deliver a full range of quality healthcare services, including primary and specialty care, dental care, patient education, and prescription medications to low income, uninsured Brunswick County residents.

That first year, we served 38 individuals out of a single room. Over the years, our services and patient population have continued to grow.

Currently, a small staff and over 150 volunteers contribute over 10,000 volunteer hours to provide more than 5,000 patient encounters each year.

THE NEED

The Affordable Care Act was implemented nationwide in 2014, yet the services of New Hope Clinic are still in great demand. How can this be? Most of our patients have incomes below the poverty level which makes them ineligible for subsidized insurance, yet they don't meet the requirements for Medicaid coverage. Over 1.5 million North Carolinians still remain uninsured! We are working hard to make sure these patients, the less fortunate among us, have access to the health care they so desperately need.

You can be a part of this cause.
