And many thanks for the many generous service clubs, churches, businesses, foundations, private donors, specialty providers and volunteers that help New Hope Clinic keep its doors open!

Our Mission:

To provide quality medical, dental and pharmacy services to low income, uninsured Brunswick County adults in a caring, patient centered setting.

Our Vision:

To make our community healthier.

Our History:

In 1998, a small group of compassionate people with a big vision joined together and founded New Hope Clinic. That first year, we operated out of a single room and treated 38 patients. From this modest beginning, New Hope Clinic has come a long way. We now operate a 4,000 sq. ft. facility in Boiling Spring Lakes where we provide care five days per week, and limited services are offered through virtual visits.

In addition to high quality primary medical care, we deliver a full range of healthcare services including specialty care, dental care, individualized patient education, and prescription medications. We also partner with other organizations to provide additional services and health education.

A small staff and over 100 volunteers, including doctors, dentists, NPs, PAs, pharmacists, nurses, medical & dental assistants, and administrative support personnel, contribute 8,000 volunteer hours to provide over 5,000 patient encounters annually. We help over 500 patients each year, but the need is even greater. Over 1 million North Carolinians still remain uninsured. Please help us spread the word about New Hope Clinic so we can help the less fortunate among us have access to the healthcare they so desperately need!

Patient Testimonies:

"New Hope Clinic is a blessing. I have no way that I could ever get any kind of healthcare if it didn't exist."

"There is a great need for your services, personally this clinic saved my life!"

"Hope is Here"
